Annotation:

This article shows that the need to educate young people spiritually and spiritually, to build a spirit of respect for moral and legal values, and to focus on the pursuit of maturation is an important issue. The socio-legal issue of the relevance of the creation of mechanisms for the formation of loyalty to the National idea, patriotism, high spiritual and moral views, ideological immunity, respect for legal values is covered.

Keywords: spiritual and spiritual education, morality, law, value, national idea, patriotism, high spiritual and moral views, ideological immunity, legal value, mechanism, social.

Introduction

Today we can witness the transformation of the activities of state and non-governmental organizations, institutions and centers serving to raise the spiritual potential of youth in our country from quantitative changes to qualitative changes. As our President Shavkat Mirziyoyev admitted: "it is necessary to focus the activities of the public fund for the support of non-profit organizations and other institutions of civil society on solving pressing problems on the premises. In particular, NGOs on the basis of social order are widely involved in identifying existing problems, analyzing them in depth, developing proposals for solutions, ensuring public control over their implementation. It will be advisable to introduce such cooperation, first of all, in such problematic areas as education, culture, medicine, ecology, construction, cadastre, transport, utilities, Employment, Social Services."

The activities of the bodies and institutions involved in the implementation of State Youth Policy in our country are enshrined under the law "on State Youth Policy", which includes:

- "state governing bodies of education and educational institutions;
- government health system management bodies and health institutions;
- bodies for physical education and sports;
- cultural bodies;
- labor bodies;
- prosecution authorities;
- internal affairs bodies;
- justice authorities;
- Defence Affairs bodies"

The formation of the Youth Parliament under the House of Commons and the Senate is instrumental in expanding the ranks of youth with high spiritual potential in society and making them a politically active layer. It is important to increase the activity of representatives of the

younger generation in determining new and priority directions on improving the quality of legislative activity, cooperation with representative bodies in improving youth educational potential and political activity, strengthening the spirit of patriotism in them.

Speaking about the members of the Youth Parliament, the studies show that in some states, in particular, the Russian Federation, Armenia, the “youth wing” of political parties with their own faction in parliament, representatives of the Youth Parliament under local councils in the Republic of Belarus, Georgia, as well as representatives of NGOs and non-profit organizations whose main activities are youth issues, are considered members of this structure .

As a result of the activities of non-profit organizations in the implementation of State Youth Policy, the realization of their priority in regulatory legal acts in the field of State Youth Policy in our country is facilitated by the implementation of public control.

Now more than 10 thousand NGOs are operating in our country. Among them, there are a lot of public structures that work with young people. For example, it was founded in 2017. The Union of youth is an organization that unites the youth of our country between the ages of 14 and 30, it was formed in order to protect the younger generation from various spiritual threats, protect their rights and legitimate interests, having a healthy and mature, independent worldview in all respects.

This organization serves to bring democratic reforms in all spheres implemented in our country today to a new level, to ensure stability and harmony in society, to bring Uzbekistan to the forefront of the world, to ensure the intellectual and professional potential of young people, spiritual and physical perfection.

Emphasizing that spiritual and educational reforms are the main priority of state policy, the Republican Center for spirituality promotion and scientific and practical center of national ideology and ideology was established on the basis of them in accordance with the decision of President Shavkat Mirziyoyev dated July 28, 2017 “on improving the effectiveness of spiritual and educational work and raising the field development to a new level”.

This center aims to carry out spiritual and educational activities aimed at raising the spiritual potential of young people, forming love and loyalty to the motherland in the hearts of the younger generation, the qualities of dedication and belonging in them, revealing the place of national value, Customs and traditions of our people in the life of society in today's period, conducting systematic and modern

President Shavkat Mirziyoyev's video-video meeting on January 19 on the issues of radical improvement of the system of spiritual and educational affairs, strengthening the cooperation of state and public organizations in this regard, today said that spiritual and educational works in the life of society are not giving the expected result due to systematic failure, for this purpose, he critically studied the activities of the, the promotion of the center's proposal to introduce an Institute of socio-spiritual research on the basis of the educational institution “promoter of spirituality” was one of the important events aimed at raising youth spirituality .

The El-yurt Hope Foundation was established in order to establish cooperation with our compatriots living abroad and conducting professional activities, especially leading specialists and scientists with enormous scientific potential, talented youth, as well as providing such

specialists in the world labor market by training and training highly qualified personnel in leading foreign educational institutions, as well as in Uzbekistan .

Today, the promising sectors of Science and education, scientific research, health, public administration and the economy are working in areas to train, improve and intern personnel at the expense of the El yurt Hope Foundation scholarships. It is also noteworthy that the foundation's Board of Trustees provides scholarships for young people of high spiritual potential to graduate and doctoral students to foreign educational institutions that have entered the world's top 500 taliks according to the ranking of internationally recognized organizations or the top 200 in selected subject areas. On April 29, 2020, the Ministry of Justice of the Republic of Uzbekistan passed the state registration of the public Association "Young Lawyers". The main goal of the public Association "Young Lawyers " is to constantly raise the legal level of young lawyers in society, to promote the strengthening of the rule of law .

Various associations and councils serving to raise the spiritual potential of a small number of young people in our country today: Republican Young Scientists 'Association, Young Creative Council, Youth Entrepreneurship Support Center of Uzbekistan, youth tourism agency, youth publishing house, Young Filmmakers Association, Young Farmers' Association of Uzbekistan, leading youth center, youth creativity Palace NGO, New Generation Forum children's Creativity Center NGO, Youth Retreat Center limited, business incubator limited, "Bunyodkor" includes youth Teleclub, the limited liability company of the Center for children and youth with disabilities, the Youth Media Center, the Universal Association of youth of Uzbekistan, the Council of young lawyers, the Council of young designers, the youth center of the Republic, etc. Among other things, the main goal of the "Republican Youth Center " is to organize various educational and practical and creative circles and others in order to promote the spiritual, scientific, legal, psychological, pedagogical, social, creative, intellectual, domestic, science and educational, sports literacy of young people in different regions of the country, and to promote youth to find their place in society .

On the basis of the decree of the president of the Republic of Uzbekistan "on measures to radically improve the system of working with young people in neighborhoods" dated January 19, 2022, PQ-92, a new system of working with young people was created.

Under this system, a number of works were carried out in each neighborhood to ensure the employment of young people by engaging them in entrepreneurship, to train them in the profession, to provide social support, to educate them in the spirit of patriotism and to organize their free time in a meaningful way. Including:

I. On ensuring youth employment and solving their socio-economic problems:

A new mechanism for working with youth problems and appeals is being introduced, which allows young people to ". yoshlardaftari.uz "it was possible to leave an online application and receive information about the status of the application through an electronic platform, a short digital Koll-Center" 1093 " or a neighborhood leader.

As a result of the establishment of the activities of youth leaders, it was achieved that the period of consideration of youth appeals was reduced from 30 days to 5 days, and the provision of assistance from 40 days to 16 days. The types of assistance provided on the recommendation of the leaders were increased from 11 to 25.

As part of the future professions project, 3,641 young people were provided with a subsidy of Rs 5.2 crore to master modern professions, learn information technology and train them in foreign languages .

A special experience in working with young people in Nukus, Karshi, Andijan, Kokand, Namangan cities and districts of Karaozak, Chimboy, friendship, Boka, Khovos, Khatirchi was created by the Republican commission for coordination of youth work in the neighborhoods and the problems of 20 thousand young people were solved on the spot.

In addition, for the purpose of distance learning of young people to modern professions in high demand www.e-kasb.uz the activities of the platform were established, 29,586 youth and 137 training centers were registered on this platform, and to date 10,637 young people have successfully completed this project.

In addition, more than 30,000 young people were involved in training as part of the projects "Hebrew language retreat", "Hebrew master class", "Hebrew media center", "Hebrew QUIZ", in order to interest young people in learning foreign languages, to encourage their aspirations. As part of the "Vikki scholarship " project, more than 20,000 young people participated and more than 200,000 Uzbek-language articles were posted on the Wikipedia platform .

In his address to the Supreme Assembly of December 22, 2017, the head of our state Shavkat Mirziyoyev considered a citizen of our country to ensure the implementation of tasks aimed at bringing to life the priority reforms established in the framework of State Youth Policy and to closely contact young people studying in foreign countries or engaged in labor activities, to support and encourage them in, also, in order to help them gain a place in society, the NGO "Universal Association of youth of Uzbekistan" was established under the Union of youth of Uzbekistan .

Today, the assumption has set itself a number of goals and objectives in raising the spiritual potential of the youth of Uzbekistan and its realization. In particular, in cooperation with the relevant organizations, to analyze the problems and aspirations of young people of Uzbekistan who are studying and working in foreign countries, to prepare useful manuals for young people planning study and labor activities abroad, to create a database of young people of our country who live abroad and to establish a permanent dialogue with them, to organize our, it has been attracting offices and higher education institutions.

The role of the media in raising the spiritual and educational potential of young people in Uzbekistan is considered significant and carries out public control over the organization of events on the intellectual, moral and physical maturation of young people, the realization of state programs. Currently, we can give an example of a number of TV channels, newspapers and magazines in the field of raising the spiritual potential of youth in our country.

In particular, the TV channel "youth " is considered the first and only electronic media in the form of a joint-stock company in the information space of our country .

In raising the spiritual potential of young people, the radio channel "youth" has a special place, and the radio channel, with its spiritual-cultural radio programs, social, economic, informational radio broadcasts, serves to form youth a sense of belonging to the surrounding events.

In conclusion, the bodies and institutions involved in raising the spiritual and educational potential of young people serve to fully protect the rights and interests of young people, to further raise the spiritual and political culture of young people, to form an active civil position in them.
